Ever wonder where you are when out exploring the state trail systems on your ATV? One app I find handy is **Polaris Ride Command**. See your current location while you are on the trails and navigate the trail systems with more confidence. In my experience not all trails intersections are marked clearly, and this app makes it easy to stay on the desired trail. It will also show roads, Gas stations, Food, Lodging and an option for satellite view. It will track your ride so you can see later where you have been. This becomes a nice tool for a group of riders in case you would happen to get split up. Try it out on your next ride on the state trail systems in your area.

Congratulations

We raffled off a \$450 Fleet farm gift card during our sweetheart night club meeting by selling a deck of cards. Jeff Olson was our lucky winner. Barb Payne won the 10 number board raffle for a 100 club party ticket.
